Murdered artists. Masterful forgeries. Art crime at its worst.

A straightforward murder investigation quickly turns into a quagmire of stolen Eurocorps weapons, a money-laundering charity, forged art and high-ranking EU officials abusing their power.

As an insurance investigator and world renowned expert in nonverbal communication, Dr Genevieve Lenard faces the daily challenge of living a successful, independent life. Particularly because she has to deal with her high functioning Autism. Nothing - not her studies, her high IQ or her astounding analytical skills - prepared her for the changes about to take place in her life.

It started as a favour to help her boss' acerbic friend look into the murder of a young artist, but soon it proves to be far more complex. Forced out of her predictable routines, safe environment and limited social interaction, Genevieve is thrown into exploring the meaning of friendship, expanding her social definitions, and for the first time in her life be part of a team in a race to stop more artists from being murdered.
